SUMMARY

Computer Science graduate with working knowledge of Python, SQL, MySQL, HTML and CSS. Interested in software development, data analysis and problem-solving, with hands-on practice through academic and self-directed projects.

PROJECT

Road Accident Data Analysis using SQL & MySQL

- Analyzed road-accident data using SQL queries in MySQL.
 - Practiced grouping, aggregation, filtering.
 - Ranking to identify incident patterns by city, cause and outcome.
-

Voice Enabled Food Ordering System

- Used Python and pyaudio.
 - Converts voice commands into food orders.
 - Demonstrates real-world interaction.
-

Amazon & Spotify Clone (Frontend)

- Developed UI using HTML and CSS
 - Focused on layout and responsiveness.
-

EDUCATION

B.Tech - (CSE)

AIMETC • I.K.G. PTU Jalandhar • 8.43

INVOLVEMENT

NCC

SKILLS

Languages : Python, SQL

Web Development : HTML, CSS

Tools : VS Code

Database : MySQL
